The New Jetta

New Jetta – First Look	02
Exteriors	11
Comfort	14
Convenience/Space	18
Safety/Engine	20
Technical Specifications	22
Features	24

**Turns corners fast.
Turns heads faster.**

140 PS. Your right foot is going to be very grateful.

**Power and styling
come together to
breathtaking effect.**

With 140 PS (103 kW) of exhilarating power and a distinctively elegant yet sporty look, the new Jetta is as much a thrill to drive as to behold. With its sleek contours, sculpted bodylines and aesthetic detail, the new design is refined and timeless, exuding quality, charisma and finesse.

1. Halogen headlights: The precisely crafted halogen lights offer optimum illumination. They also add a stylish touch to the exterior.

2. New two-piece tail lights: Integrated with elegant indicators, these lights enhance the rear styling with their exquisite look and give the new Jetta its distinctive identity.

3. Fog lamps: The superior fog lamps on the new Jetta ensure enhanced visibility and light up the road ahead during bad weather.

4. Exterior rear-view mirror: The finely designed rear-view mirrors are carefully built to perform their task admirably. They are electrically adjustable as well as foldable, and come integrated with turn indicators.

5. Aesthetically designed alloy wheels: The new Jetta offers two advanced kinds of alloy 6½J x 16 wheels: the "Atlanta" as well as the "Navarra" wheels. Both boast of 205/55 R16 tyres and anti-theft wheel bolts. These wheels embody the perfect balance of form and function that defines the new Jetta.

Craftsmanship.
It's what makes a car
into an art form.

If the exterior of the new Jetta promises, then the interior delivers. Consider the superior comfort of the plush armrests or the minute attention devoted to the leather-stitched seat upholstery. Carefully chosen to best complement your lifestyle, every detail, feature and styling element inside the new Jetta is crafted from the highest quality materials to provide a level of refinement that's nothing short of exceptional.

**Who says comfort
and an adrenaline
rush are mutually
exclusive?**

Cleverly designed and crafted to provide a truly luxurious ride, the new Jetta contains a wealth of features that make every drive a stress-free, relaxed experience.

1. Sleek styling: White instrument lighting and red needles make for an immediate and impressive aesthetic impact, while the multifunction display shows important information as you travel.

2. Steering wheel with paddle shift: In the new Jetta, the pure thrill of driving is enhanced, as changing gears is now at the command of the fingertips.

3. State-of-the-art stereo system: Let your favourite music add to the excitement of the drive. The RCD 510 touch screen radio/dash-mounted MP3 compatible, six CD autochanger features a large 6 1/2 inch colour display, with intuitive menu navigation and touch screen operation. It also features an AUX-in socket and an adapter cable for connection to an external multimedia source as well as SD memory card slot.

4. 12-way electrically adjustable driver seat: Comfort gets its due in every aspect of the new Jetta. Never more so than with the driver seat experience. The 12-way adjustable driver seat means that the seat height, backrest incline, length position, seat incline and lumbar support are perfectly customisable, regardless of the driver's build and size.

Cruise control: The cruise control system works electronically to help regulate your driving speed. It reduces the stress on your driving and offers you more comfort on long journeys by maintaining a constant speed.

All the space you want. And then some more.

1. The redesigned boot has a maximum load volume of 510 litres and, along with a well-placed storage box, provides plenty of space for all your luggage needs, increasing flexibility and convenience. The rear seats in the new Jetta are foldable, either completely or to a 60:40 ratio, letting you accommodate even more luggage in the boot.

When the rear centre armrest is folded down, it provides a useful load-through provision, enabling you to transport bulky objects, such as a beach umbrella, with the greatest of ease. The rear centre armrest also features two cup-holders.

2. The front centre armrest comes with its own spacious storage compartment and cover, ensuring that your essentials are within easy reach.

3. The spacious glove compartment is designed to discreetly hold items that you may need at a moment's notice, with plenty of space for various requirements. There's a special sunglasses compartment located just above the rear view mirror so that your shades are always at hand.

Built for maximum safety.

Only when you feel safe can you drive confidently. Which is why, safety is such a fundamental concept in the new Jetta. It's also why a whole range of new generation safety features are fitted as standard.

Parking sensors: These assist in parking manoeuvres by emitting both audible and visual signals, alerting the driver to any obstacles in the way: the closer you are to an obstacle, the faster the sound frequency. In addition, an Optical Parking Display extends the functions of the parking sensors by indicating your position on the vehicle's video display during parking.

1. Electronic Stabilisation Programme (ESP): This vital safety feature recognises critical driving situations and reacts in milliseconds by targeting brake and management systems, controlling the speed of individual wheels and helping to bring the vehicle under control. As a result, the vehicle achieves maximum directional stability. Further active safety features include an Anti-lock Braking System (ABS), Electronic Differential Lock (EDL) and Traction Control (ASR).

2. Eight airbags worth of peace of mind: A comprehensive eight airbag safety system gives maximum protection to the driver and the

passengers. This includes a curtain airbag system for front and rear passengers, front and rear seat side airbags as well as the standard driver's and front passenger's airbags with passenger's airbag deactivation switch.

Engines and transmission.

The new Jetta has a powerful and efficient TDI engine.

1. The TDI engine eliminates any compromises – you can have performance as well as exceptional economy. This diesel engine benefits from the latest common rail technology, resulting in a stunning 140 PS (103 kW) of power at 4200 rpm and exceptional torque of 320 Nm at 1750-2500, alongside low fuel consumption. This technology not only ensures excellent performance and fuel consumption but also makes it pleasantly quiet.

2. The revolutionary six-speed DSG gearbox provides the best of both worlds, combining super smooth and extremely fast gear changes with performance and economy. This ensures maximum power with minimal fuel consumption.

Volkswagen service for your peace of mind.

Volkswagen Warranty & Extended Warranty: The new Volkswagen Jetta comes with a standard warranty of two years, unlimited kilometres and can be extended at an additional cost for a further two years and up to 1,00,000 kms from the date of sale (whichever is earlier), which protects your car against the defects of most mechanical and electrical components due to manufacturing defects. All periodic maintenance at recommended intervals and warranty work must be completed by an authorised Volkswagen dealer.

3-year Paint Warranty & 12-year Anti-Perforation Warranty: The paintwork of the new Jetta is covered against manufacturing defects for a period up to three years and the vehicle body parts for a period of twelve years from date of sale against perforation caused by corrosion. Naturally, the new Jetta must be cared for in compliance with the operating instructions which will be found in your vehicle handbook and all body repairs must be done at an authorised Volkswagen dealer.

Volkswagen Roadside Assistance: Every new car is registered for Volkswagen India Roadside Assistance for two years from its date of sale. This provides the vehicle with home and roadside recovery in the unlikely event of a breakdown anywhere in India (subject to terms and conditions). This service can be extended for two additional years. For more details, please consult the nearest authorised Volkswagen dealer. Further details for the Warranty: Please contact your Volkswagen dealer or Volkswagen India Assistance, 24x7, anytime, anywhere.

Call toll-free 1800-102-0909 / 1800-209-0909.

Periodic Maintenance: The service interval of your Volkswagen is scheduled every 15,000 kms or one year.

Annual Maintenance Contract (AMC): At a nominal cost, you do not have to pay for three services based on the options you select. It is valid up to three years/45,000 kms and can be availed from your nearest authorised Volkswagen dealer.

Bumper to Bumper Coverage: By paying additional insurance premium amount, you can protect yourself and your car against all possible mishaps. These benefits covered are:

- Depreciation shield
- Engine protector (with gear box cover)
- Vehicle replacement advantage
- Accidental shield (sum insured ₹ 2 Lakhs)
- Alloy wheel rim
- Damage due to rodents

Please Note: The features and specifications contained in this brochure are for information purposes only and are subject to change without prior notice. The print process does not allow for exact reproduction of paint finish and seat upholstery colours. If you require any specific feature, you must consult your authorised Volkswagen dealer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen dealer prior to ordering. We would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. Terms and conditions apply.
